Annual Report
of the
Municipal Officers
of the
Town of Sorrento

For the fiscal year
July 1, 2000 - June 30, 2001

and the

Warrant

For the fiscal year July 1, 2001 - June 30, 2002

The Annual Town Meeting will take place during two days.

Monday, September 10, 2001 Election of Officers:

Polls will be open from 2PM to 7PM.

at the Sorrento Town Hall

The following Monday, September 17, 2001

The remaining business under the warrant will be conducted
beginning 7PM at the Community Building.

Dedication

Walter E. and Janice Guyette

Walter E. Guyette, Jr. grew up in Sorrento and attended the Sorrento Elementary School and Sumner Memorial High School. He went on to attend the University of Maine. He worked as a carpenter for C. Bucklin of Northeast Harbor. He then joined his father in managing and working at Guyette's Appliance and TV Store in Ellsworth. The next enterprise with his father was Guyette's L.P. Gas Service which Walter continues to run today. Walter has volunteered for many committee positions in Sorrento including the Planning Board. The Board of Selectmen has appointed him Code Enforcement Officer and Shoreland Zoning Compliance Officer. He was elected Fire Chief for nine terms. His mother, Virginia, says that he enjoys reading especially history, genealogy, wildlife and bird watching.

Janice Guyette grew up in Rockland, graduating from Rockland High School then Beal College with an Associates Degree in Accounting. She began her business career in Trust Operations with the former Merrill Trust Company in Bangor. She joined the Union Trust company in Ellsworth as a Trust Operations Officer. In 1991 she was promoted to Assistant Vice-President and in 1999 was promoted to Vice President. Janice loves arts and crafts and has taken many courses in the field. She is a very fine watercolorist, makes collages and collects dolls.

Together they enjoy visiting museums and galleries and enjoy traveling. Close family ties are a foundation of their full and successful life in Sorrento.

Dedication

Edward Lee Kennedy

Sue and Lee Kennedy discovered Sorrento in 1991 and now treasure their summer months here. Both grew up in Oklahoma City, but have lived in New York since 1969. Their two sons and one -soon to be two- wives live on the west coast, and manage short vacations here.

Lee has practiced architecture for thirty years and in private practice since 1978 in New York and London, specializing in the design of residential and commercial architecture and interiors. He is a Registered Architect in Connecticut, New Jersey, New York, Pennsylvania, and the United Kingdom; certified by the National Council of The United Kingdom. Lee apprenticed under Edward Barnes in New York and Kaplan/McLaughlin in San Francisco.

His professional memberships include the New York Chapter of the American Institute of Architects, and The Royal Institute of British Architects. He holds two baccalaureate degrees from the University of Oklahoma: Architecture (Tau Beta Pi honor society), and Business Management/Law. He has served as Chairman of the Millbrook NY Planning Board; several Sorrento Boards, and was listed in Who's Who in the East.

Lee is a pioneer in Computer Aided Design, and the author of CAD Drawing Design Datamanagement (Whitney Library of Design, NY, 1986).

There is more about Lee at www.acanthus.net and in the forthcoming book New York-Architects 01-01 (PSA Publishers, NY) due out in October 2001.

The Board of Selectmen were pleased to accept Lee's offer as official Town Architect. He has assisted the New Town Hall Building Committee, the Landscape Committee and has created a concept sketch for the Central Firehouse. We appreciate his time and expertise donated to the Town's building projects.

2002 Assessor's Notice

In accordance with Title 36, M.R.S.A., Sec. 706, as amended, the Assessors of the Town of Sorrento hereby give notice to all persons liable to taxation in said municipality, that they will be in session at the Town office in said municipality on the 1st of April 2001 at 7:00 PM for the purpose of revising lists of the estates taxable in said municipality.

Owners

All persons liable to taxation in the Town of Sorrento, Maine and all Administrators, Executors, Trustees, etc., of all estates taxable in said municipality of such persons are hereby notified to furnish to THE ASSESSORS TRUE AND PERFECT LISTS OF ALL THEIR ESTATES, REAL AND PERSONAL, not by law exempt from taxation, of which they were possessed on the first day of April, 2001² and be prepared to make oath to the truth of the same and to answer all proper inquiries as in writing as to the nature, situation and value of their property liable to be taxed.

Estates Distributed

And when estates of persons deceased have been distributed during the past year, or have changed hands from any cause, the executor, administrator, or other such persons interested, are hereby warned to give notice of such change, and in default of such notice will be held under law to pay the tax assessed although such estate has been wholly distributed and paid over.

Persons Doomed

And any person who neglects to comply with this notice is hereby barred to his right to make application to the ASSESSORS or any appeal therefrom, for any abatement of his taxes, unless he furnishes such list with his application and satisfies them that he was unable to furnish it at the time appointed.

Blank schedules will be furnished at the Assessors' Office on application

ROAD COMMISSIONER'S REPORT

In the last year we have paved 3 roads - Doane's Point Ave., Fuller Road, and Cedar Street. We have done a lot of ditching for drainage on Nautilus Road, reset several culverts, and graded all dirt roads.

I would like to pave a few more short roads that need winter maintenance - the upper end of Forest Ave., Mt. Desert St., and a section of Bay View Avenue., as requested, to stop dust.

I would like to ask people who have large land clearing of wood to please have it taken out of town in January and February, when the roads are frozen. Our old roads can't take the weight of the big trucks and trailers. This past year some of our roads received some heavy use and didn't stand up well.

Respectfully submitted,
Frank Trundy. Jr.
Sorrento Road Commissioner

PLANNING BOARD

With all the new homes being built, additions to existing homes being added, and other constructions taking place here in town we have been very busy this past year.

We do go and check over the sites whose owners have applied for permits so that we can justify the requests, especially when there is a question concerning shore land.

We held nine (9) meetings this past year and have had a new member join the Board—Sturgis Haskins. Our Chairman—Walter Guyette- is still out on temporary leave and Mike Tansey has assumed the position as Acting Chairperson.

During the past year – July 1, 2000 to June 30, 2001 we have issued 8 permits.

- 1 Replace existing building & add on to another one
- 2 Rip rap
- 2 Addition to existing house
- 3 New homes

SORRENTO COMMUNITY BUILDING

This past year the Community Building has been used by Sorrento families and many organizations for a variety of activities. Holiday parties, birthday parties, Union 96 meetings, pot luck dinners, wedding rehearsal dinner as well as a place for the bridal party to prepare for the wedding, Garden Club political causes, Dept. of Marine Resources, town meetings, elections and workshops, Fire Dept. and Water district meetings.

The Community Building Committee is in the process of installing an outside faucet for watering the flowers and shrubs that have been planted. three small steam tables were purchased.

The Community Building has been set up for a disaster shelter. The generators have been tested and will keep the building running in the event of another ice storm or electrical outage. (we also have the capability of cooking with our gas stove).

Bids are out for new windows and doors.

We encourage you to use the building and to take part in promoting activities that will benefit our community. Thank you for your support!

REPORT FROM THE SORRENTO FIRE DEPARTMENT

This past year has been a busy year for us. Work and training is ongoing, as always. In-house classes are structured to meet OSHA Training guidelines. The Finance Committee has done a great job keeping expenses down.

We have responded to 59 calls this year: 2 chimney fires, 5 downed power lines, 1 pole fire, 6 trees down, 23 mutual aid calls, 2 flooded basements, 8 activated smoke detectors, 2 brush fires, 4 unattended burns, 2 boats adrift, and 4 EMS trauma calls.

Remember, time is critical when responding to an emergency situation - be it fire or medical related. Please do your part - phone early for assistance.

Know your E-911 address. Be sure that your property is correctly identified, per Sorrento's Street Naming and Property Numbering Ordinance. That way, fire personnel and ambulance personnel will have an easier time finding your property.

Seconds can make a difference - in our ability to save momentos, your home, your life, or that of someone you love.

The ISO will be letting us know, by September or October, about the rating for the town. When we hear from them, notices will go out so you can call your insurance company.

First Responder Training will begin this fall.

Anyone wishing to assist the department is encouraged to attend meetings. Meetings are normally scheduled for the second Tuesday of every month.

A flagpole dedication ceremony in honor of Gary E. York was held on August 25th. Gary was a much valued friend and member of the Sorrento Fire Department.

Yours in fire safety,
Joey Clark, Fire Chief

INSURANCE SERVICES OFFICE, INC.

4 B EVES DRIVE SUITE 200 MARLTON, NJ 08053 (856) 985-5600 FAX (856) 985-6464

August 15, 2001

Mr. Louis Sullivan, 1st Selectman
Sorrento Town Office
79 Pomala Ave.
Sorrento, ME 04677

RE: Public Fire Protection
Sorrento, Hancock County, ME

Dear Mr. Sullivan:

We wish to thank you, Chief Joey Clark, Mr. Jim Guyton, and Fire Department staff and others for the cooperation given to our representative during our recent survey. We have completed our evaluation of the fire insurance classification for your town and advise that the protection class has improved to Class 6/9.

Formerly Class 9/9 applied to the town. The new classification may result in a decrease in advisory property insurance calculations for many insured properties within the town. The new class will be effective on November 1, 2001. The change may affect properties to a degree depending upon the type of building construction, the hazards of occupancy and other factors. Insurance policyholders should contact their agent or company to determine the effect this change in classification might have on their policies.

Class 6 applies to properties in the town within 1,000 feet of a public hydrant five (5) road miles or less of the responding fire station, and with a needed fire flow of 3500 gpm or less. Class 9 applies to properties within five (5) road miles of the responding fire station, but beyond 1,000 feet of a fire hydrant. Class 10 applies to properties beyond five (5) road miles of a fire station. The private and public protection at properties with larger needed fire flows are individually evaluated, and may vary from the town classification.

The purpose of our visit was to gather information needed to determine a fire insurance classification which may be used in the calculation of property insurance premiums. This survey was not conducted for property loss prevention or life safety purposes, and no life safety or property loss prevention recommendations will be made.

The Sorrento Capital Improvement Committee Report for the Annual Report:

The Sorrento Capital Improvement Committee was formed in the Fall of 2000. Our job is only to make recommendations to the Board of Selectmen and the townspeople. Over the winter we met with some town departments and committees, with the Fire Department being top priority this year.

Our recommendations have to do with both the downtown firehouse and the Town Center firehouse:

1) We hope there is no doubt that the Town of Sorrento owns the downtown firehouse and the land it sits on.

2) We suggest the Board consider alternatives for the future use of the downtown firehouse, such as keeping it or renting it, as well as possibly selling it.

3) We suggest that if downtown firehouse be sold, it not necessarily go to the highest bidder without considering the effect on the downtown neighborhood.

4) We suggest that if the downtown firehouse is sold, the money not necessarily go to finishing the Town Center firehouse without considering the following:

Many voters in Sorrento are concerned that the Town Center may not be the Best Place for a Large firehouse, because:

1) Insufficient Parking, and can firetrucks easily get out when the parking lot is full?

2) Where could the Community Building expand if/when it needs to?

3) Does our small town need so many firetrucks, and therefore need to house so many trucks?

4) Eventually there will be state mandates for regional Fire Departments. We could start planning for this now, and save considerable money by sharing resources: equipment, trucks, buildings, with our neighbors in Sullivan. One idea is to build a small station on Town land near Route 1. That plus keeping the downtown firehouse might just meet our needs, and the unfinished Town Center firehouse might be recycled into some other community use.

Making recommendations is our job! Even if noone is listening, we will keep churning them out!

Respectfully submitted,

Hilly Welch - chairperson Capital Improvement Committee

Our Selectmen's Response to the Suggestions from the Capital Improvement Committee

The Board of Selectmen appreciate the efforts of the Capital Improvement Committee. It was formed by the Selectmen to encourage suggestions concerning Sorrento's future capital expenditures and possibly to assist with non-tax based funding options to help offset the cost of these improvements. Many of the suggestions stated in the preceding Sorrento Capital Improvement Committee's annual report, which have been brought up in the past and have been addressed by the Selectmen, may not have been researched thoroughly or put into print for all of Sorrento to see. The following addresses those suggestions.

1) Does the Town of Sorrento own the downtown firestation?

The downtown firehouse was built with the labor and money of the Sorrento Volunteer Fire Fighters on Town land. After consulting with a Maine Municipal Association attorney, it was clear that this building is owed by the volunteers. The Town's attorney will be looking into this very soon to create a Quit Claim deed for the Fire Department association to transfer ownership of the building to the Town. The possibility exists that there is a record stating that the FD Volunteers presented the fire house as a gift to the Town. This will be looked into but the Quit Claim deed may prove to be easier for the Town to establish ownership.

During the Annual Town Meeting of 2000, the Town approved the amended article 18 which reads; "To see if the Town and the Fire Department will vote to sell the Village Fire Station and the land upon which it sits, with the proceeds to be used for capital expenditures of the Fire Department. Any perspective buyers would need to present a proposal for use of the property to the Selectmen to be voted on at a special town meeting in April". The Town's approval of this article accomplishes several things:

1. The Town made the decision to sell the Village Fire Station
2. The Fire Department is in agreement to sell the Village Station if the proceeds benefit our Fire Department.
3. The final decision of the future use of the building is in the hands of the voters of Sorrento.

- 2) The Capital Improvement Committee suggested alternatives to selling the Village Fire Station.

1. *Keeping the station..*

Sale of the Station will save Taxpayer's money by paying for completion of the centrally located Fire Station near the Community Building, paying off the remainder of the fire truck loan with the balance going into the Fire Truck Fund. This would eliminate the capital costs of the Fire Dept. .It would also save the annual utility costs of the station, which were \$1287 last year, as well as the fact that the building is in need of significant repairs.

2. *Renting the station.*

Renting the Village Fire Station would require several expensive improvements to bring the building up to safety codes required of a Town offering property for rent: The existing stairs are out of code and their needs to be a second way out of the building. The electrical and plumbing also need to be brought up to code. The ceiling drywalls of the garage need to be totally replaced with fire rated material because it house vehicles.

- 3) *Not to sell the Fire station to the highest bidder?*

The decision of who buys the Village Station and for what purpose it is used is up to the voters of the Town meeting presented with proposals for use from prospective buyers. This is an important decision that the Voters will make. We have confidence that the best proposed use will be chosen even if it is not offered by the highest bidder.

- 4) *The Sorrento Capital Improvement Committee suggests that the Town Center may not be the best place for a large Fire House.*

4.1. *Insufficient parking*

A parking problem exists at the Town Center during special events. The current plan for the Town Center will add a few parking spaces. A future plan will be introduced after the Town Center is complete which will provide ample parking, while maintaining access to the Fire Station and providing screening to these additional parking spaces from the Town Center.

4.2. *Where could the Community Building expand if/when it needs to?*

It is believed that there would be little support for expanding the Community Building in the future. A more fiscally responsible suggestion may be to use the Sorrento-Sullivan Recreation Center in the future if it decided that the few annual Town events no longer fit in the Community Building.

4.3) *Does our small town need so many fire trucks, and therefore the need to house so many trucks?*

Our Sorrento Fire Department provides a very cost effective service to this Town. The primary responsibility of our Fire Dept. is to respond to structure fires in town and minimize the property loss and saves lives. The ISO, (Insurance Services Office), rates towns on their ability to provide this service. This rating is used by everyone's homeowner insurance companies to set the fees which you pay as homeowners for this coverage. The Selectmen recently requested ISO to review our rating of 9/9. This past summer the ISO inspector worked our Fire Chief, the Selectmen and the Long Pond Water District to reevaluate our rating. Included in this year's Annual Report is the latest result of this work. As of November 1, 2001 the Town of Sorrento will be rated a 6/9. This means that the homes within 1000 feet of a hydrant will benefit from a significant savings, depending upon your insurance company. The ISO inspector will return soon to oversee a tanker shuttle test which will test our Fire Department's ability to provide 250 gallons a minute over 3 hours with our equipment as well as mutual aid from surrounding towns. The result of this test will lower the ISO rating to homeowners who are beyond 1000 feet from a fire hydrant.

Additional Justification of our Fire Trucks by our Fire Chief

Two pumpers are needed; one is used for a fire attack and the second one is used for a backup to protect the people on the attack lines inside the burning building. You cannot have attack lines and backup lines coming off of the same truck. Also if the main pumper breaks down, you have another one to take its place. You cannot depend on mutual aid from our neighboring towns to supply the second engine because during the day and certain evenings there are not enough volunteers in certain towns to respond. We are very fortunate that we have a dedicated bunch of volunteers who will respond when alarms are sounded and take all of our equipment to the scene.

We need a *tank truck* to provide protection to the areas of our Town without Fire Hydrants, which are the northern part of the east side and all of the west side. The Town is liable for fire protection to protect these homes and properties.

Our *brush truck* is needed to be able to gain access down the roads that we cannot get to with our other equipment. Mutual aid towns cannot get down these roads as well. As a Fire Department, we are obligated to make an attempt to extinguish a fire down these roads.

Our *utility truck* carries necessary equipment and medical supplies to the scene. It also carries our cascade system, which fills our air packs. If we didn't have this we would have to find someone with a pickup truck to make numerous trips to Ellsworth fire station to fill the air bottles during a fire. This would take 20 minutes to get to the Ellsworth fire station, an hour to fill the numerous air tanks and 20 minutes to return to the scene. This would not be acceptable! The cascade system we now have in the utility can go to the fire scene, fill all our air tanks used at the scene numerous times and not need to be refilled again until after the fire scene is cleared.

Our *ladder truck* was donated to us and is privately funded by donations. This truck has cost the Town nothing and no Town money will be used for its upkeep. The ladder truck will be used to help gain access to roofs and chimneys on structures in town. The risk of a Firefighter falling off or through of a roof is a real and serious danger. OSHA regulations are changing everyday. The latest regulations require a firefighter to wear a full body harness and a safety line attached to a fixed ladder. This is realistically impossible

without a ladder truck. The ladder truck will also allow firefighters to safely attack possible fires of several homes in town which are over 35 feet high and help with their insurance coverage.

4.4) Eventually there will be mandates for regional Fire Departments. We could start planning for this now, and save considerable money by sharing resources: equipment, trucks, buildings, with our neighbors in Sullivan.

Regional fire departments, something that we might see 15 or 20 years from now, is a concept which would accommodate the possible, future requirement of having a full time Fire Chief. This would save money by forming a regional fire department of several towns which would get together and pay for a full time fire chief. It has nothing to do with getting by with less equipment. Our centrally located Fire Station is within 5 miles of any dwelling in town. A fully equipped station needs to be within 5 miles of dwellings in order for all of our Taxpayers to benefit from reduced fire insurance premiums. If Sullivan was willing to contract with Sorrento to provide fire coverage, which they are **not**, we would still have to maintain all of our equipment and provide shelter for it.

Sullivan's Fire Chief, Joseph Fontaine, was officially asked the question "Could Sorrento save money if we contracted with Sullivan for fire protection coverage". He responded with a detailed letter. To summarize:

This would not be favorable for either Town to do because of response time and liability issues. Sullivan's equipment would have to be brought up to code for town contracting which would cost hundreds of thousands of dollars. Sullivan's Fire Department would have to be full time with a full time Fire Chief. During the day, as we stand now, both departments barely have enough firefighters to cover their own towns none the less one department covering two towns.

The Mutual Aid Agreements currently in place work very well. Sorrento's equipment is used often in both towns at different emergencies as well as Sullivan's equipment is used in Sorrento.

The Fire Chief of Hancock, Michael Cummings, was also asked this question. His response was: "We, the Hancock Volunteer Fire Department, are not in the business of contracting fire services.

We will go anywhere we are needed for mutual aid under the county's mutual aid agreements. We had trouble finding time to train with our busy schedules as it is. We had 92 calls for the year 2000-2001."

One idea is to build a small station on the Town land near route 1. That plus keeping the downtown firehouse might just meet our needs, and the unfinished Town Center firehouse might be recycled into some other community use.

One centrally located firehouse make a lot of sense. You have one building with all that it entails including one set of utilities, one building to maintain and one location for all Sorrento's firefighters to meet and decide on which equipment to take to the call.

The Village Fire Station, as stated earlier, needs a lot of work. It is also small and can house only two of our smaller pieces of equipment. The property which the Town owns on the East Side Road near Route 1 is small. It does not have enough space to provide parking and house the remainder of our equipment. It would also cost more to build any size station there than to complete our centrally located firehouse since the costs of drilling a well, installing a septic system and paving a parking lot would also have to be incurred.

As was stated earlier, the efforts of the Sorrento Capital improvement Committee are appreciated. Their suggestions have been given serious thought and evaluation for all to read.

Respectfully submitted,

The Selectpersons of Sorrento

SULLIVAN-SORRENTO HISTORICAL SOCIETY

To the Residents of Sorrento:

The Sullivan-Sorrento Historical Society has an archival headquarters and museum at the Recreation Center in Sullivan where we are proud to serve as a center for genealogical and historical information with files of pictures, newspaper clippings, books and letters. The center is open Tuesday 1:00 to 3:00 and by appointment with the curator (at 422-6816) throughout the year. We also have a web site: <http://ellsworthme.org/sshs/>.

Our membership of 60 includes people from all across the country as well as locally. Yearly memberships are: \$5 per person, \$10 per family, \$25 sustaining as well as \$100 life membership. We invite you to join us in our activities. We welcome donations of materials under certain conditions and would be glad to help you research your historical interests.

President Peg Walker, Vice President Gary Gordon, Secretary Helen Thomsen, Treasurer Sam Robinson, Curator Barbara Potter.

Respectfully submitted,
Peg Walker

July 2001

911 - E COMMITTEE

For the Town of Sorrento we are ready and waiting for the implementation of the 911 system to be put into effect.

As you may know Hancock County is one of the two Counties in the state that is not using the 911 system. This is because we have not been able to find a department that is willing to take on this responsibility due to manpower and cost. The County Commissioners are however trying to work out a solution to this problem.

As some of us already know having our house number on our mailboxes and our houses has been very helpful when an ambulance, fire truck, or other emergency vehicle has needed to respond for us.

Hancock County Sheriff's Department, County ambulance, and neighboring fire departments have been supplied with maps of our town, which will enable their response time to be even more efficient.

If you are building on a site that does not already have a number assigned to it or if you are not sure if there is one, please contact the Addressing Officer and you will be given the information that you need. Also..... please remember that the Post Office nor the Town Office do not assign you your house numbers.

Judith High
Addressing Officer

REPORT OF THE SHORELINE IMPROVMENT PROJECT (S.H.I.P.)

Members of our committee have decided not to seek reappointment. We have, frankly, been discouraged and disheartened by the lack of interest and support for our effort by the majority of selectmen.

This committee was founded in 1995 on the occasion of Sorrento's centennary. Our initial effort was to commission a waterfront landscaping master plan from the noted landscape architect, Patrick Chasse, of Mount Desert. Our first major work began with the refurbishing of the village green area. Toward this end, over \$15,000 was privately raised to cover the costs of this part of the project.

While we have made an effort to continue to implement the master plan, which was approved by the town meeting, the Selectmen and the Planning Board, too many decisions have been made without our approval and knowledge and the effort has been seriously compromised.

We do wish to acknowledge, with grateful appreciation the enormous amount of work of our former co-chair, Kathy Herson has done for this project. We wish her well in her new home in another part of Maine. We are grateful, too, to Jim Guyton, of Sullivan, for his gnerous donation of two pick-up loads of mulch for the village green. We note, also, that a number of rugosa roses were planted this summer next to the town ramp to preserve the natural protective barrier between the beach and the road which has been worn by motor vehicals.

Portions of the project at the town launching ramp, the town dock and Doane's Point remain unfinished. While we would like to have continued as a committee and are grateful for the support members of this community has shown us, we have reluctantly decided not to seek reappointment.

Committee members,

Marion Wise, Chairman, Sturgis Haskins, Beppie Noyes, Mary Ann Solet

COASTAL RECYCLING

Coastal Recycling hired a management consultant this past year to help the organization get back on its feet and on the road to recovery. In doing this there were a lot of changes that took place in management, finances, and everyday operations. After many hours of meetings and consultation, answers to questions as to why, how and where the plant is now going forward with a better outlook than before.

A new manager/supervisor -namely Joyce Levesque – has been hired to get the plant headed in the direction of success. Under her direction there have been many positive changes made to the betterment of the plant. A newly painted office greets the customers when they enter the building. Products that were taking up useable space for many months were sold or disposed of for the betterment of the plant. A reduction in payroll expenditures, dependable staff hired, certification of employees for the use of the forklift and elimination of most all of the equipment that can not be repaired or used are just a few of the changes that have taken place.

With the positive changes happening Coastal seems to be back on the road to success. This of course means that we all need to keep on recycling. Recycling is here and with everyone's participation and support Coastal can and will once again be a successful commodity for all the participating towns.

FRENCHMAN'S BAY LIBRARY

The library this year has seen alot of growth. We have acquired many new books and tapes and soon we will be the happy recipients of the Bill and Melinda Gates Foundation Grant of two new Gateway computers and a laser printer. These two computers will add to the one we already have giving us two up front and one for the children back in their own area. these will make a big difference in the service we will be able to provide for the surrounding communities and we hope that many will come and partake of these.

Frenchman's Bay Library has been in operation now for over 50 years and we hope to sail into the 21st century for 50 more.

Our hours are Tuesday and Thursday from 1 PM to 5 PM and Saturday from 10 AM to 2 PM. we look forward to seeing many new readers as well as all our old friends.

PLUMBING INSPECTORS REPORT

Town of Sorrento

During the year of August 2000 to August 2001 I issued 7 internal plumbing permits. I also issued 11 wastewater disposal system permits. Several complaints were checked out which involved doing work with no permit. Most of them coming under the "I didn't know" category, and were readily corrected.

Respectfully submitted,

Joseph E. Havey

Licensed Plumbing Inspector

SORRENTO - SULLIVAN RECREATION CENTER

To: Town of Sorrento

July, 2001

The Board of Directors of the Sorrento-Sullivan Recreation Center welcomes the opportunity to thank the citizens of the town of Sorrento for their continued support. Without that support the future of the Center would certainly be in doubt.

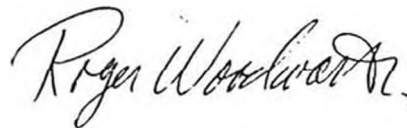

As you know the Center is a focal point for various activities designed to meet the educational and recreational needs of the citizens of these communities. Currently three organizations occupy space in the building and contribute to its financial health. These include the Frenchman's Bay Library, Sullivan-Sorrento Historical Society, and Sumner Adult Education's Adult Learning Center. Additional revenue is generated by renting space for such activities as auctions, suppers and receptions. And, of course, weekly beano remains the main source of funds supporting the facility.

In the past several years the board has approved some much needed capital improvements. These have included roofing and furnace work, exterior painting, tiling of the floor in the main hall, and paving of the east end parking lot.

The board appreciates the financial contributions made by the towns to defray the costs of some of these projects. As the costs of fuel oil, electricity and general maintainance keep increasing, the board finds it more and more difficult to meet expenses and keep providing services. Therefore, the contributions made by our communities are truly needed and very much appreciated.

Thank you for your support.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Roger Woodworth".

Annual Report of the Long Pond Water District

July 19, 2001

Long Pond Water District continues to be in complete compliance with all standards for safe drinking water. Ortho Phosphate is being added to keep us in compliance with Lead/Copper readings. Tests for Lead/Copper taken in December, 2000 show us to be in total compliance. Consumer Compliance reports for the 2000 year have been completed and are being mailed to all customers.

One hydrant has been installed at the end of the Doanes Point Road, the old hydrant in front of the Gerald Daley house has been replaced and approximately 900 feet of 4" line beginning at Tommy Andrews and continuing to Ocean Avenue has also been replaced. This removes what we believe to be the last of the galvanized pipe within the system. 510 feet of line was replaced running from Ocean Avenue to the corner of Waukeag Avenue by the Post Office, a valve was installed to isolate the line from Maine Street to the Village Green and also a valve was installed mid way on the West Side road for isolation purposes. One service pump at the Water Plant had to be replaced at a cost of \$3,800.00 and the computer systems have been upgraded.

Water quality continues to improve, however we still have approximately 3,000 feet of old line running from Bass Cove to the J.B. road on the East Side road. Plans are to replace this section when funds become available.

The standpipe has developed problems with the inner lining and will be replaced at no cost to the District this fall. During the period that the standpipe is not available, every effort will be made to keep any inconvenience to a minimum.

At the present time there is litigation pending between the District and the Town of Sullivan concerning the Punkinville road.

Monthly meetings of the Trustees are held at the Treatment Plant on the third Tuesday of each month at 7:00 PM and the Public is invited to attend. The Annual meeting is the third Thursday of July at the Community Building in Sorrento.

January 2001

Dear Friends and Neighbors:

Thank you for allowing me the privilege of serving as your State Representative in the 120th Legislature. It is truly an honor to represent the people of Sorrento. Over the last two years many of you have called or written me sharing your views and concerns about issues facing our state. It is important for each of us to speak up and participate. I welcome your input.

The First Regular Session began the first week of January. Over 2,300 bills will be considered in Augusta during the next few months. I will try to keep you up-to-date as much as possible as to the status of those bills important to the Hancock County community.

As a member of the Joint Standing Committee on Marine Resources, our work will no doubt affect many people in this district. I will work hard to see that all fishermen in Maine have the opportunity to establish and maintain a successful career in this industry.

It is my duty to ensure that the Maine Legislature is responsible to its citizens. With the state facing a budget shortfall of close to \$300 million, we must make certain that essential services, not frivolous programs, are the focal point of this year's proposed budget. Tax cuts made last year such as lowering the sales tax to 5%, eliminating parts of the snack tax, exempting \$6,000 of pension income from the income tax, indexing Maine's tax brackets for inflation and conforming with federal tax law on the self-employed health insurance deduction are helping Maine families. My goal is to protect these new tax breaks.

Please feel free to contact me with your thoughts and concerns. I can be reached at home in Lamoine, 667-6214, or at the State House in Augusta, 287-1440. During session you may leave a message on the toll-free House line at 1-800-423-2900. If you prefer writing, my home address is 420 Buttermilk Road, Lamoine, ME 04605. My State House address is 2 State House Station, Augusta, Maine 04333-0002.

Respectfully,

William D. Pinkham
State Representative

District 132 Eastbrook, Gouldsboro, Hancock, Lamoine, Osborn,
Sorrento, Trenton, Waltham and Winter Harbor, plus the unorganized
territory of No. 8 Township

Independent Auditor's Report

To the Board of Selectpersons
Town of Sorrento
Sorrento, Maine 04677

We have audited the accompanying general purpose financial statements of the Town of Sorrento, Maine, as of June 30, 2001, and for the fiscal year then ended, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town of Sorrento, Maine's management. Our responsibility is to express an opinion on the general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in "Government Auditing Standards" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Sorrento, Maine, as of June 30, 2001, and the results of its operations and cash flows of its Fiduciary Fund type for the fiscal year then ended in conformity with generally accepted accounting principles.

In accordance with "Government Auditing Standards", we have also issued a report dated August 28, 2001, on our consideration of the Town of Sorrento, Maine's internal control structure and on its compliance with laws regulations, contracts and grants.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The schedules listed in the enclosed table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Sorrento, Maine. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

Respectfully submitted,

James W. Wadman, CPA

**Report on Compliance and on Internal Control Over Financial
Reporting Based on an Audit of Financial Statements
Performed in Accordance with Government Auditing Standards**

*To the Board of Selectpersons
Town of Sorrento
Sorrento, Maine 04677*

We have audited the financial statements of the Town of Sorrento, Maine as of and for the year ended June 30, 2001, and have issued our report thereon dated August 28, 2001. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in "Government Auditing Standards", issued by the Comptroller General of the United States.

Compliance

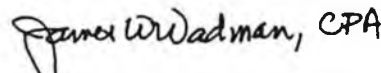

As part of obtaining reasonable assurance about whether the Town of Sorrento, Maine's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The result of our tests disclosed no instances of noncompliance that are required to be reported under "Government Auditing Standards".

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town of Sorrento, Maine's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of management, Federal awarding agencies and passthrough entities and is not intended to be used and should not be used by any other parties.

Respectfully Submitted

James W. Wadman, C. P. A.

The Warrant

Hancock, SS State of Maine

To: Dwayne Clement,
Resident in the Town of Sorrento, in the County of Hancock

Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the Town of Sorrento, in said county qualified by law to vote in Town affairs, to meet at the Sorrento Community Building on Monday the 10th day of September, AD 2001 at 2 o'clock in the afternoon then and there to act on articles numbered 1 and 2.

1. To elect a moderator.
2. To elect by Australian Ballot the following officers: One Selectperson for three years; one Tax Collector, Treasurer, Town Clerk for one year; one Fire Chief for one year; one School Board Member for three years and one Road Commissioner for one year.

The polls will open 2:00 PM and close at 7:00 PM at the
Sorrento Community Building

And to notify and warn said voters to meet at the Sorrento Community Building on the following Monday, the 17th day of September, AD 2001 at 7:00 PM, then and there to act on the remaining articles, namely:

3. To set compensation for the following offices:

	Recommend:
Selectpersons	\$3,300 2,900 and 2,900.
Tax Collector, Treasurer, Town Clerk	13,000
Fire Chief	\$2,250
School Board Members	\$450
Road Commissioner	State Wages

4. To elect 3 assessors and 3 general assistance officers and set compensation.
5. To elect Directors for the Sorrento Community Building, to serve for 1 year.

6. To see what date the town will set when taxes shall be due and payable, and to see what rate of interest the Town will set to be charged on said taxes unpaid after said date.

Recommend: December 10, 2001 and 10% interest.

7. To see if the Town will vote to require a spokesperson of charities only when the charity requesting Town donations is new. This would repeal the past article requiring spokespeople to be present for all charities requesting funds.
8. To see what sums of money the Town will vote to raise and appropriate in the following categories for the 2001-2002 fiscal year.

Recommend:

Administration	\$42,000	
Legal (Quit Claim Deed work and other advice)	2,000

W.I.C.	270

10. To see if the Town will vote to secure a loan of \$49,000 to complete phase II of Fire Station 2, appropriate from surplus \$10,000 for the downpayment, and raise and appropriate \$12,000 for the first years payments.
11. To see if the Town will postpone the sale of the downtown Firehouse, pending recommendations by the Capital Improvement Committee.
12. To see if the voters of Sorrento will enact a ban on construction of structures over 75 feet high. This ordinance shall be known as the Height Restriction of Structures Ordinance for the Town of Sorrento.
13. To see if the Voters of Sorrento will enact a Notification Ordinance for the Town of Sorrento to go into effect November 1, 2001.

Section 1. Title and Purpose:

This ordinance shall be known as the "Building Notification Ordinance of the Town of Sorrento, Maine". It is enacted by the voters of the Town of Sorrento to promote the property values and tax equity by requiring notification of intention to build or remodel all dwellings and structures, including prefabricated homes.

Section 2. Authority:

- 2.1 This ordinance is enacted pursuant to the authority given the Town in 30-A MRSA 3001.
- 2.2 This ordinance shall in no way impair or remove the necessity of compliance with any other regulation, permit or provision of law. This ordinance does not replace a Shoreland Zoning Permit.
- 2.3 This ordinance shall apply to all construction commence after the effective date of this ordinance.

Section 3. Administration:

- 3.1 The Town Clerk shall accept completed Intention to Build Notification Forms and shall place submitted forms on file in the Town office.

Section 4. Notification of Intention to Build

- 4.1 Before construction is started on any structure, the owner or agent shall complete an Intention to Build Notification Form. Forms may be obtained from the Town Clerk.
- 4.2 Structure is hereby defined as a building or buildings or portion thereof on a single parcel constructed or erected with a fixed location on or in the ground or attached to something on or in the ground which occupies a ground area in excess of 200 sq. ft. or value of materials and labor to construct in excess of \$1,500.
- 4.3 A complete Intention to Build Notification Form shall include:
 - a. estimated cost of the proposed structure, including cost of labor.
 - b. for new dwellings, expansion of existing dwellings and for conversion of seasonal dwellings to year round use, a valid permit for a subsurface disposal system, or letter that such permit is not necessary from the Local Plumbing Inspector

Section 5. Fees

There are no fees.

Section 6 Amendments:

This ordinance may be amended by majority vote of the Town at any Town Meeting, the warrant for which gives notice of the proposed change.

14. To see if the Town will vote to raise and appropriate an additional \$6,000 for improvements to the "Sorrento Town Center".
15. To see if the Town will vote to authorize the selectmen to appropriate and expend up to \$19,000 from the State Aid Block Grant to repair, resurface and rebuild town roads.
16. To see if the Town will raise and appropriate \$5,500 for the Sorrento Community Building to cover running expenses, with any remainder to be transferred into the Community Building Committee's checkbook. This sum will be used by the Building Committee for improvements along with the donations that come in.
17. To see if the Town will vote to erect a memorial to honor veterans of the Korean and Vietnam Wars.
18. To see if the Town will vote to amend The Sorrento Harbor Ordinance as follows:
 - 2.1 The selectmen will appoint a harbor master annually pursuant M.R.S.A. S 1. The harbor master will take office on January 1 each year. The harbor master may be appointed constable of the Town of Sorrento. He/she will have the duties and powers prescribed by law and this ordinance.
 - 2.3 The selectmen may appoint an assistant harbor master.
 - 4.6 The harbor secretary will issue no more than 15 non-resident rowboat permits and 15 non-resident mooring permits to 15 non-residents in any calendar year.
 - 5.1 Vessels shall be operated within harbor limits in a safe and prudent manner. No person shall operate a vessel within the harbor limits in a manner which threatens danger to any person or property, or which causes any wake.
 - 5.2 There shall be no water-skiing or jet skiing within Harbor limits.
 - 5.3 All commercial fishing activities, (except diving), is strictly prohibited within Sorrento Harbor and Lower Harbor mooring areas and channel as marked by "NO FISHING" buoys.

6.10 Dinghies are prohibited from being stored on town docks and floats.

19. To see if the Town will vote to raise and appropriate \$5,000 and appropriate \$10,000 from surplus for the Fire Truck Fund. Money from this fund can only be withdrawn by appropriation for Fire Truck replacement.
20. To see if the Town will vote to authorize the Selectmen to accept for the Town gifts or grants of moneys from Federal, State or private sources.
21. To see if the Town will authorize the Selectmen to dispose of all property held by tax liens on such terms as they deem advisable, and execute quit claim deeds for such property providing any such sale is advertised in the Ellsworth American for 30 days prior to such sale so that all may have an opportunity to bid on same.
22. To see if the Town will vote to authorize the Selectmen to spend an amount not to exceed 1/4 of the budgeted amount in each budget category of the 2000-2001 fiscal year during the period July 1, 2002 until the annual town meeting for the year 2002.
23. To see if the Town will vote to allow the Selectpersons to sign contracts relating to hauling of Municipal Trash.
24. To see if the Town will authorize the Fire Department, with the Selectmen's approval to dispose of surplus capital equipment in a manner that best benefits the Fire Department. The proceeds, if any, will be deposited in the Fire Truck Fund to be used, along with any donations, to replace the equipment for the Fire Department.
25. To see if the Town will vote to adjourn the meeting.

The Selectmen hereby give notice that they will be in session at the Community Building at 7 o'clock in the evening on Monday, September 17, 2001.

Louis Sutherland
Robert Wilpan
Constance Dedam
Selectpersons of Sorrento
